

# Cyber Security Top Tips to Stay Safe

**Vijay Rathour**  
Partner, Grant Thornton  
Digital Forensics Group

# Staying Secure

- **Phishing Attacks & Scams**
  - train staff to be alert
    - spelling errors, change of bank account etc
  - control websites they can access
  - use virus killers and malware scanners
  - change passwords if anything suspicious occurs
  - consider two factor authentication

# Staying Secure

- **Your Mobile Workforce**
  - encrypt mobiles / laptops where possible
  - enable password / fingerprint controls
  - use mobile device management to wipe devices
  - keep devices patched
  - keep an inventory and alert for lost devices
  - change passwords regularly, but not too often

# Staying Secure

- **Monitor and Limit Malware Damage**
  - use virus killers and malware scanners
  - use effective firewalls (change passwords!)
  - control apps that can be installed
  - patch regularly (software & firmware)
  - use endpoint protection / block USB sticks
  - use Mobile Device Management tools
  - use VPNs where possible

# Staying Secure

- **Backup your data and BCP**
  - identify your sensitive and valuable data
  - backup (in a separate location) necessary data
  - consider use of cloud infrastructure
  - ensure all data is encrypted (cloud and local)
  - check your networks: not too connected
  - test your protocols – **assume the worst**
